

PointClickCare®

Dear NYSHFA/NYSCAL Member,

We are in this with you.

As COVID-19 (Coronavirus) diagnoses continue to rise globally, PointClickCare is committed to providing a safe and healthy environment for our customers and the residents they care for and the greater community.

We are monitoring updates related to COVID-19 closely and have created two online resources for our customers to stay informed as well as receive helpful tips on reducing risk:

1. A dedicated [COVID-19 resource page](#) on the PointClickCare website.
2. A dedicated COVID-19 resource area within the [Pulse](#), our online customer community.

Additionally, we strongly recommend and encourage our customers to refer to the national, state and local agencies that govern their respective areas to monitor status and stay up to date on recommended preventive action.

If you are interested in learning more about what is available to your organization, please visit the PointClickCare [COVID-19 resource page](#) or visit the [Pulse](#).

We hope you are keeping healthy and safe.

Your PointClickCare Team
